

# **Hospital Financial Reporting for FY23**

Sarah Lindberg, Director of Health Systems Finance

January 11, 2023

#### **Proposal: Semi-Annual Reporting for FY23**

Staff propose 3 financial monitoring time periods for FY23, instead of the current practice of requiring 5.

| PROS   | CONS  |  |
|--|---|--|
| <ul> <li>Reduces burden on regulated entities</li> <li>Allows additional time to dedicate to any changes in FY24 budget reporting</li> </ul> | <ul> <li>May increase time before GMCB<br/>would learn of financial problem for<br/>regulated hospital</li> </ul> |  |

# **Current vs Proposed Reporting**

### **Additional Oversight**

- Budget conditions allow further measures, as needed:
  - [Hospital] shall participate in telephonic check-ins to be scheduled at the discretion of the Board Chair in consultation with Board staff based on the hospital's FY23 year-to-date operating performance
  - [Hospital] shall advise the Board of any material changes to its FY23 budgeted revenues and expenses, or to the assumptions used in determining its budget
  - [Hospital] shall participate in the Board's strategic sustainability planning process.
  - [Hospital] shall timely file all forms and information required for provider acquisitions and/or transfers as determined by GMCB staff, if applicable.

## **Suggested Motion Language**

Suggested motion language:

Move to modify the hospital financial reporting schedule to require hospitals to report mid-year actual results twice per year instead of quarterly, with mid-year reporting deadlines at the end of March and the end of June, as presented today by GMCB staff. Actual year end reporting will continue to be due on December 31.
